Line spacing must be at least **18 points (1.5 lines)** except for footnotes and long quoted passages. **The left-hand margin must be 1.5 inches wide** on all pages of the thesis including figures, appendices, etc. The top, bottom and right-hand margins must be at least 1 inch wide. The textual material should be typed on **only one side of the paper**. A good grade of **24 pound bond paper** preferably Dartmouth Bond of sufficient opacity should be used

The Text

1. **Introduction: (Required)** A brief discussion of the purpose of your research. Page numbering of main text starts here with Arabic numeral 1.
2. **Main body: (Required)** Divide into larger divisions and more important minor divisions indicated by suitable headings. Page numbering continues with Arabic numerals.
3. **Appendices/Bibliography:** Any illustrations, statistics, sources, & references. The Bibliography may be single spaced, but there must be a space between each source. Page numbering continues with Arabic numerals.

Page Numbering

Each page of your thesis, except the title page, and the blank/copyright page following the title page, must be assigned a number. **The following plan of page numbering is required:**

1. For **The Preliminaries** (Abstract through Table of Contents), small Roman numerals (starting with ii, iii, iv, etc.) are used. The page numbering should begin with ii, on the abstract page. The blank page (or copyright page) is not counted or numbered. Page numbers should be located center bottom.
2. For the remainder of the thesis (beginning with the Introduction, or Chapter 1 if there is no Introduction), including **The Text** and **Appendices/References**, Arabic numerals are used. Do not use letter suffixes such as 10a, 10b, etc. The numbering should begin with 1 and run consecutively to the end of the thesis. Page numbers should be located center bottom.

IMPORTANT DETAILS:

Paper:

A good grade of **24 pound bond paper** preferably Dartmouth Bond of sufficient opacity should be used so that typing on the following page will not noticeably show through. The paper should be 8 ½ x 11 inches in size. Dartmouth Bond is available for purchase in the MALS Office for \$10 per ream (1 ream = 500 sheets). The textual material should be typed on **only one side of the paper**.

Margins:

The left hand margin must be 1.5 inches wide on all pages of the thesis to allow for binding – you DO NOT bind your thesis the Library does this for you. The top, bottom, and right hand margins must be at least 1 inch wide.

Type:

Line spacing must be **at least 18 points (1.5 lines)** except for footnotes and long quoted passages. Please **use a standard font** such as Times New Roman, at least **11-point font** size.

Illustrations:

Illustrative materials must be drawn in opaque, dark ink. Identification of lines on a graph should be made by line symbols rather than by variation in color, and large colored areas (e.g., countries on a map) should be indicated by cross-hatchings. If black and white photographs are to be used, care must be taken that they do not have too much contrast. Dry mounting is the neatest and most permanent method to employ, although rubber cement and glue are acceptable.

Oversized Materials:

If it is necessary to have materials larger than the standard page size, which must be folded in, these should first be reduced as much as possible consistent with their use so that there will be as few folds as possible. All reduced photocopies or photographs should be clean with a high quality resolution. Any folded pages must fold to within the page boundaries (margins) specified above. If the description of an illustration or chart is too long to be placed on the same page as the graphic, it should be placed on the previous page, not on a separate unnumbered page.
